

Important Information on Ewaybill

(as on 11.06.2018)

Latest updates in EWB system (Ver.1.2.0 Rel.0611) has been deployed today with the following features:

1. A new feature 'Change to Multi-vehicle' has been deployed in EWB. This feature will help the tax payers and transporters to update multiple vehicles numbers for the same e-waybill (see FAQ)
2. Preview of E-waybill has been enabled before the submission, so that the user can verify the details before generation of EWB.
3. The Dashboard of EWB activity for the last 3 days has been enabled to the user on login to EWB System.
4. Sub-user wise e-waybill generation report is also provided.
